

## The Reel west newsletter

6+ hours in the saddle today in Copper Canyon. It's hard to tell how many films used this area for a location, City Slickers, Cowboys & Aliens and The Lone Ranger just to name a few. A beautiful ride. Did not arrive back at the hotel until almost 10 p.m. so, very few captions tonight. Just enjoy the scenery.

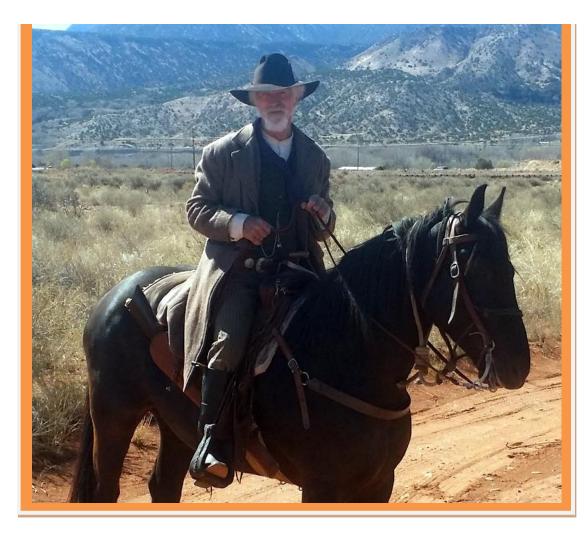

Pete Tenderfoot, a dandy from England. Pete really is from England, this is his fourth ride with Great American and he grew up hunting fox, which they call "The Hunt". TALLY Ho!!!!
